1958 N. D. Car Licenses May Be Installed

BISMARCK, N. D. (AP) — "Go ahead and install your 1958 North Dakota car licenses," was the advice to motorists Saturday from A. N. Lavik, state motor vehicle registrar. Lavik said he and the state highway patrol have received a number of queries about when the new plates may legally be installed.

"As soon as you receive them," was Lavik's answer. He said as soon as plates are issued his department has a record of the 1958 registration.

The reflectorized plates — two this year instead of only a rear one — went on sale Nov. 1 in most areas. They must be installed on all vehicles by Jan. 1, 1958. After that time motorists driving without 1958 plates are subject to arrest unless they can show proof of having ordered the new tags.

The 2-plate set will be used for the next four years. Small tags designating the year will be issued for 1959 through 1961 each year, with the registration numbers remaining the same. The numerals are green on a

neutral reflectorized background on the new tags. The 1957 Legislature upped the price 50 cents a set to pay increased costs of steel for the extra plate and for reflectorizing them.

Plates purchased after Feb. 1 carry a penalty for late purchase, Lavik noted. He said applications

appear to be coming in as well or better than last year.

Plates may be purchased by mail, at the registration bureau in the state capitol or at a dozen branch offices across the state.

Havana Woman Has Served Her Church As Organist, Choir Director 60 Years

BY A STAFF WRITER
HAVANA, N. D.—Mrs. W. B. Wyckoff of Havana was leafing through hymn books one day recently, planning the music for the coming Sunday's church services at the Havana Congregational Christian Church.
She came across a song which struck a familiar note as it were.
When the choir, which she directs along with her duties as church organist, met for practice that week she had with her that piece of music.
Mrs. Wyckoff turned to the choir and said, "Now listen closely to this."
And then she played "Love Me Tenderly," an old church hymn which rock 'n' roll singer Elvis Presley has made popular recently, but with new words.

Downtown 2,972 Cars

By STAN COWAN Staff Writer

Although Fargo has downtown parking lots to accommodate more than 2,900 automobiles there is a pressing immediate need for more such lots and the need is going to continue for a long time to come.
That's the thinking of the police traffic department, the chamber of Commerce parking and traffic flow committee and many businessmen who are wracking their brains in efforts to provide a place for shopper-pedestrians to fight.
Capt. Eddie Anderson in charge of the police traffic bureau has a list of all parking facilities in the downtown area.

It shows 35 "free" parking lots to accommodate 974 cars, provided by business, industry and apartment owners for use by their patrons. There are 48 "private" lots ac-
